**B2B Online & Destination Services**

# Who are we?

We are a family business with a professional team at your service.

Gabriel Catala Amengual started the business in 1964, during these 50 years we have maintained our Values, **Tradition** and a dedication to Service. We are **Competitive** in our prices, constant with our **Innovation** in technology and have a strong **Commitment** with all our clients year after year. Season after season our clients have left their customers in our capable hands.

Thanks to the experience and professionalism of our team throughout the years we have created strong links with our suppliers and clients.

At Urbis we are prepared to provide a service to the most demanding needs of today's market prices, services and technology.

The XML Technology is of the fourth generation based SOAP Web Services, Standards Caval and Opentravel, with our own expert team of Research + Development.

If you are a professional in Tourism,  
**Let's talk about business!**

## Powered by **BUSSO** CONNECTING BUSINESS

With years of experience, Busso moves our business.

Busso is a complete Online Booking Engine ERP which covers all our needs as a growing FIT wholesaler and Incoming Agency.

A quick and agile web application with all the functions necessary to easily load, control and maximize our product management from start to finish.

All our product on one system: Hotels, Transfers, Day Trips, etc.

Busso provides maximum access to our suppliers and agencies for uncomplicated connection to our customers, with additional entry to the world's leading Channel Managers.

Designed for agencies of any size or scale, Busso adapts to our needs.
